

1/2" Bore Flat Bearing Mount (535118)

Actobotics™

DREAM. DESIGN. BUILD. REPEAT.

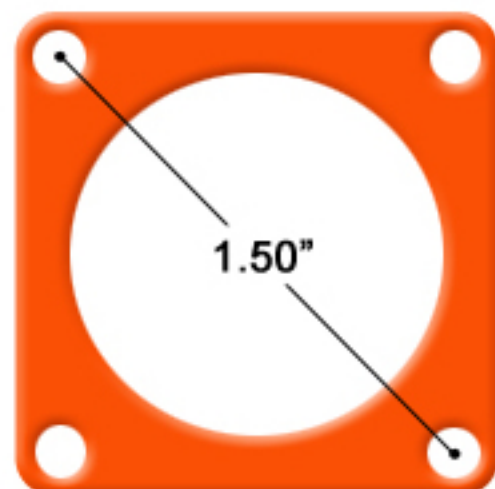

Weight: 0.20 oz (each)

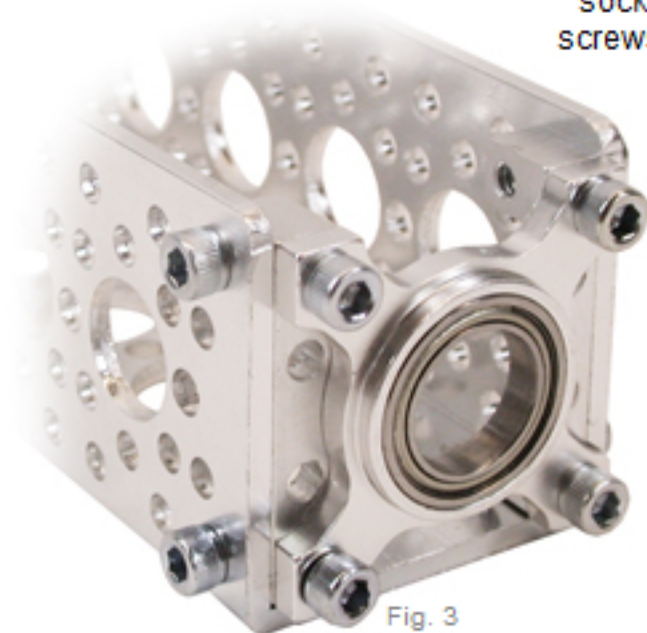

Includes pre-installed bearing.

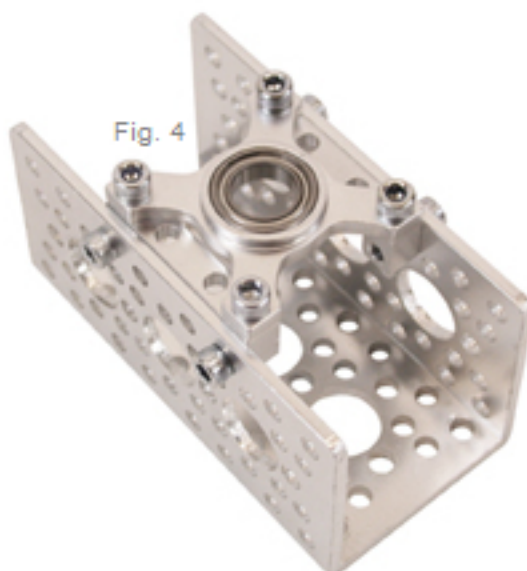

This mount uses 6-32 socket head machine screws (sold separately) [click here](#)

Utilizes a 1.50" hub pattern.

Shown mounted to the end of our channel using (2) [90° Dual Side mounts](#) and [6-32 socket head screws](#).

The bearing mount can easily be attached in the middle of our [channel](#) using the [90° Dual Side mounts](#) or [6-32 standoffs](#).

This is the top bearing mount that is used in our standard size [ServoBlocks™](#).
